

MYLES JÉH

"...the substance in this album is universal and has the ability to cross many barriers."

-Underground HipHop Blog

Myles Jéh's music selection has landed him to share the stage with the great Jennifer Hudson, as well as open up for Kirstin Maldonado of Pentatonix.

Jéh is best known for his low tone, and laid-back, but thoughtful lyrics. Myles released *Mylestones* on October 1, 2015 as a standard and deluxe edition. The lead single "Been There, Done That" set the stage, while his visual for "Hood Story" went viral on social media.

Myles has been a featured artist on several sites including Songshooter, as well as ReverbNation multiple times.

His new CD, *TWENTY-8*, is a coming-of-age compilation. Jéh showcases his vocal abilities on "Natural Disaster," "Ride," and "U-Turn."
